### **Standard Features**

*collectiveQuartermaster* is a supply management system designed specifically to meet the needs of law enforcement. Available as a web-based or traditional software install, the system will give your quartermaster staff the tools they need to do their job more efficiently while providing your organization with more detailed reporting on equipment assignments, costs, and more.

#### **Overall Benefits**

- More detailed item inventory
- Quicker and easier vendor ordering
- Faster check out and check in
- Better employee tracking and communication
- Audit security
- Ability to integrate and export data to other software

#### **Technical Features**

- Configurable security roles allowing appropriate access levels per user
- System entirely barcode compatible
- Import/export data easily through .csv files
- Powerful data queries and filtering
- Full auditing capability including who deleted, added, or changed data in the system
- Configurable to allow changes to the interface, fields, or workflow to better suit you specific needs today or down the road

#### **Asset Inventory Management**

- Track unlimited fixed assets (camera/recording equipment, furniture, etc.)
  - Track purchase information, purchase vendor, life cycle, depreciation, replacement dates
  - Track inspections, repairs, and history of assignments to employees, other assets, or divisions
- Track unlimited asset inventory items (duty gear, tactical supplies, weapons, office supplies, etc.)
  - Serialization of items
  - Barcodes for easy assignment
  - Expiration, replace, or discard dates
- Inventory values based on purchase history
- Ability to create or input barcode numbers and scan to find items

#### **Item Ordering**

- Quantities, costs, and vendor information
- Grant or fund information
- Vendor and pricing management
- Bidding process, quickly send out purchase requisitions
- Auto generate orders for needed items, export to financial applications if desired
- Tie orders to specific GL codes or budgets

#### **Employee Management**

- Scheduled license/certification renewal
- Issued items list
- Details such as service years, uniform sizes, to make ordering easier
- Ability to manage stipends or uniform allowances, depletions, and amount left
- Service stripes, stars, or other accessories noted on employee records to ensure correct uniforms

#### Check in/Check out to personnel

- Issuance history maintained
- Barcode scanner ready
- Create templates for standard sets of issuances (new hire for example)
- Limit issue of items based on certifications or licensing
- Automated email or printed receipt of items issued to employee for record keeping

#### **Employee Requests**

- Portal for employees to request items from their phone, tablet or PC through the web anywhere
- Approval process included with automatic alerts to supervisors if desired
- Can view existing items issued to them

#### **Automated Alerts**

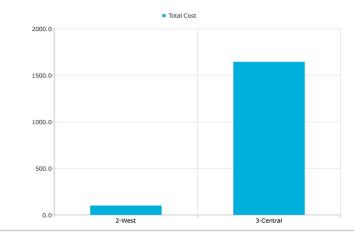

- Expiring items
- Overdue checked out items
- Items needing reorder

#### Reporting

The collectiveQuartermaster software system comes with a variety pre-built reports as well as the ability to create unlimited reports through our "ad-hoc" creator or more in-depth report editor.

- Issue history by employee (with costs for certain date ranges)
- Send an employee a list of what has been issued to them with one click
- Item reorder list by vendor
- List of items issued for employees
- Expiring or overdue Items list
- Vendor purchase history
- Employee license/certification renewal schedule
- Inventory totals and values for a date range
- All reports can be exported or emailed directly from the system
- Charts and graphs
