

Optimizing Supply Chain Performance

ADC SOLUTION OVERVIEW

SOLUTION HIGHLIGHTS

Unlike most automated data collection (ADC) solutions that have evolved from technology integrators with often little or no industry expertise, Savant ADC was developed by supply chain professionals who have worked with global distribution and manufacturing companies in the design and implementation of warehouse automation.

CLICK TO REQUEST A DEMO

AFFORDABLE, LICENSED-BASED PRICING STRUCTURE

Easily add more users as your company grows. 0% financing options available.

CUSTOMIZABLE, SINGLE CODE SET

Flexible system that can be configured based on your unique business processes. Eliminate rip and replace scenarios—simply enter in a new license key to upgrade to a full WMS.

"THE GOAL WAS TO CREATE A SOFTWARE PLATFORM THAT NOT ONLY INCORPORATED FEATURES AND FUNCTIONALITY BUT ALSO DEALT WITH THE PROBLEMS ASSOCIATED WITH DEPLOYMENT."

CHRIS JACKSON, PRESIDENT SAVANT SOFTWARE

Designed to help grow small and mid-sized manufacturing and distribution companies.

Savant ADC decreases manual operations, eliminates paperwork and reduces operational costs by increasing the accuracy and speed of warehouse functions like receiving, putaway, inventory counts, inventory moves, picking and shipping. By improving operational efficiencies, Savant ADC enables your organization to gain a real competitive advantage.

For small and mid-market companies, cost and time are serious concerns when implementing a new automated solution. Savant ADC has multiple pricing models to fit every budget. It is also easy to install, easy to configure and easy to use. Your warehouse staff will be up and running quickly with minimal disruption to your daily operations.

EASY TO INSTALL AND USE

Partner with an authorized implementation specialist or do it yourself, Savant provides the documentation and training tools to get you up and running quickly and at minimal cost.

SCALABLE SYSTEM WITH AN UPGRADE PATH

Start with our ADC solution and add functionality to seamlessly evolve into a WMS as needs change.

LAND AND EXPAND IS A CONCEPT WHERE YOU PURCHASE OR “LAND” ON THE SYSTEM THAT FITS YOUR NEEDS AND BUDGET TODAY, THEN EXPAND OR GROW INTO THE SYSTEM THAT YOU NEED FOR TOMORROW. SAVANT PROVIDES A ROBUST UPGRADE PATH FROM ITS ADC ENTRY LEVEL WAREHOUSE AUTOMATION SOLUTION TO A FEATURE RICH WMS. UNLIKE OUR COMPETITORS WHICH FORCE YOU TO RIP OUT ONE SYSTEM AND REPLACE IT WITH A COMPLETELY DIFFERENT ONE, SAVANT’S UPGRADE PATH ONLY REQUIRES ENTERING A NEW LICENSE KEY WHICH EXPANDS THE SYSTEM’S CAPABILITIES. THIS UNIQUE STRATEGY GREATLY REDUCES THE COST OF UPGRADES AND TRAINING, AND EXTENDS THE LIFE CYCLE OF THE SOLUTION.

FEATURES

- Role Based Security
- Customizable Menus, Toolbars and Grids with Sorting and Filtering
- Standard Interface to Many Leading ERP Systems
 - Detailed Transaction, Audit and Productivity Reporting
 - Manage Inventory Movement
 - Inventory Adjustments
 - Full Pallet and Item Picking
 - Multi-Language Support
- Integration into Savant's Other Supply Chain Modules
 - Crystal Reporting
 - Inventory Receipts
- Supports Both Physical Inventories and Cycle Counts
 - Directed Picking
 - Pick to Pack

"It's refreshing to be working with experts, questions are responded quickly with straight answers, no BS, decisions gets made quickly because we are confident in the information exchanged. The software interface is obviously designed by people who get it, as in people who actually understand the challenges of a warehouse operation in a physical world. The interface is straightforward, makes sense to a warehouse employee, and easy to use."

Randy Chen
Ming Hong International
Dynamics NAV

"Sierra Nevada Brewing selected Savant Software in 2007 as our Supply Chain partner. During the past six years, Savant has accomplished numerous phased implementations and upgrades. As part of the recent expansion to Asheville NC, we reviewed our supply chain operations and chose Savant Software to continue providing the system and support, including a Best Practices review and SOP recommendations for our joint operations. Savant has proven to be a valuable partner in the past and will continue to be an important part of Sierra Nevada Brewing's future."

HONEYWELL

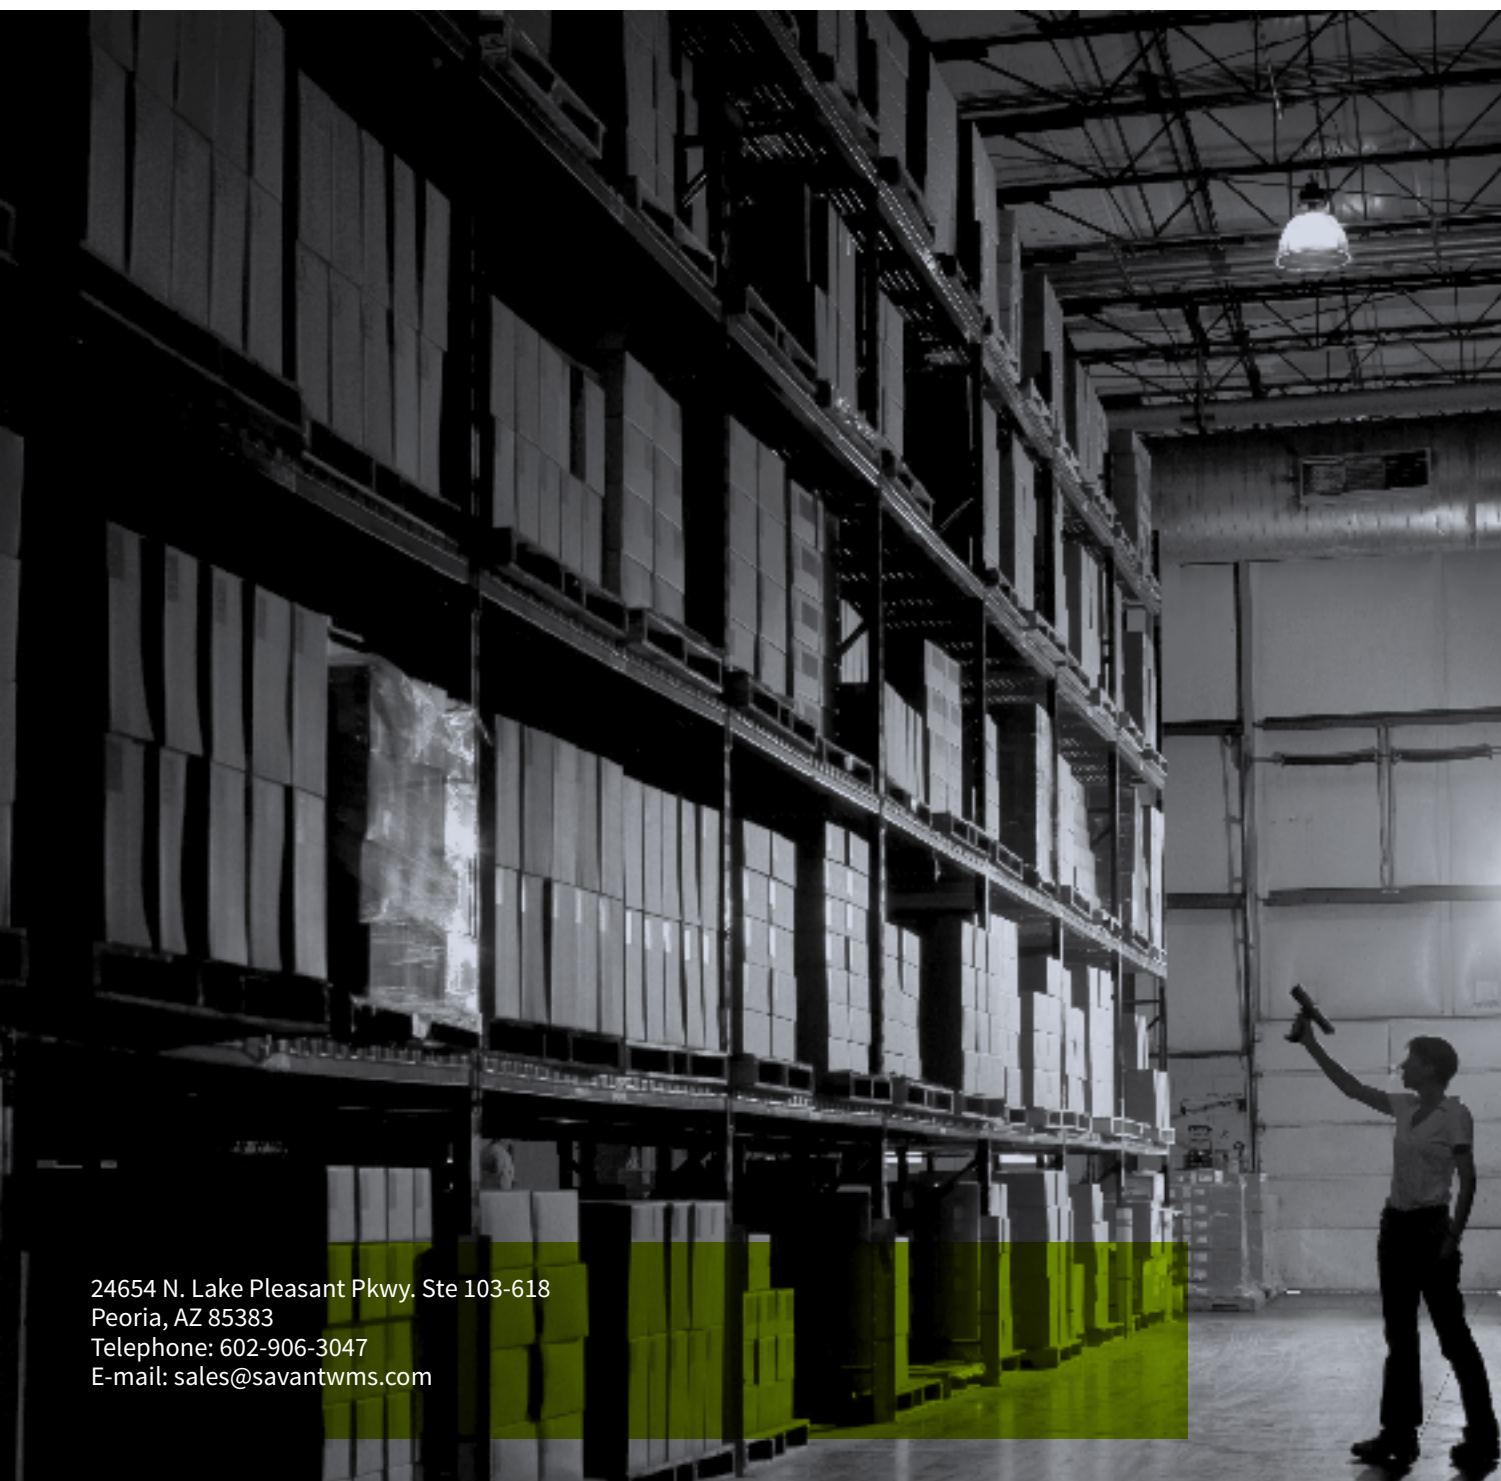

STRATEGIC PARTNER

Honeywell Scanning & Mobility is a leading manufacturer of high-performance image- and laser- based data collection hardware, including rugged mobile computers and bar code scanners. Their product portfolio is one of the broadest in the AIDC industry, providing solutions for vertical markets such as distribution, manufacturing, transportation and logistics. Honeywell products complement Savant's innovative products with a service and professional solutions that enable customers to effectively manage operations and assets.

DOLPHIN MOBILE COMPUTERS

Honeywell's rugged field computers provide multi-purpose utility in an ergonomic form factor, driving improved productivity for mobile workers and a lower total cost of ownership for enterprises. Not as bulky as laptop computers, yet more durable than tablet computers, Honeywell's mobile field computers are IP65-rated for trusted protection against environmental factors like dust and rain. Equip your workforce with mobile field-ready computers with mission-critical functionality from Honeywell, the experts in AIDC technology.
