INFO on demand

MEANINGFUL DATA.
REAL-TIME INFORMATION.
PROACTIVE MANAGEMENT.

FEATURES

Tailor-Made

Seamless Integration With Existing IT Environment

Repeatable and Scalable

Flexible Hardware Options

BENEFITS

Pay for what you want. A custom solution based on your needs, objectives and budget.

Minimize IT staff involvement. Huzzard IOD app and backend program integrates seamlessly with all types of enterprise programs and intranet environments.

Spread the good news. Easy to repeat your tailor-made solution on other production lines within the same facility and beyond.

You want to grow? Let's go. Scale your solution without compromising your initial investment.

It's nice to have choices. Integrate with a variety of technologies including barcode, Bluetooth LE, NFC, and RFID.

APPLICATIONS

Increase Productivity - Improve efficiency and performance.

Quality Control - Automate the non-conformance notice process and pin-point the root cause of quality issues.

Document Management - Provide up-to-date and easily accessible media including: Safety Data Sheets (SDS), Standard Operating Procedures (SOP), Build Instructions, and How To Videos.

COMPATIBILITY & SUPPORTED ENVIRONMENTS

Client app runs on an Android or iOS device. Backend program can be hosted on your server or as a Cloud based program.
